

ENVIRONMENTAL POLICY OF ATTICA MOVERS SA

ATTICA MOVERS SA following a course continuous and sustainable development, aiming at the rational use of natural resources (with the ultimate aim of minimizing the negative effects on the environment), developed and implements a system of environmental Management according to **ISO 14001:2015**.

ATTICA MOVERS SA is also registered at the **National Producers' Registry** and the **Hellenic Recycling Agency** obtaining the relevant certificate for recycling paper materials and wood, promoting this way its awareness for the environment and contributing to the reducing of its environmental footprint.

Specifically:

- ✓ implements the Environmental Legislation and fulfils the conditions for the approval of the environmental conditions of the competent authority.
- ✓ implements continuous training of its staff.
- ✓ ensures the environmental awareness of its suppliers.
- ✓ implements environmental management systems in the whole spectrum of its activities.
- ✓ develops and implements environmental objectives dynamically evolving, resulting from the **analysis of risks and improvement opportunities**
- ✓ continuously improves its environmental behaviour in matters of prevention and response to emergencies.
- ✓ promotes the development of relations of mutual cooperation with the relevant social entities and any other interested parties, contributing to the adoption of measures for continuous improvement of environmental protection.
- ✓ performs frequent environmental measurements (recycling, consumption of energy and water resources etc.).

The Environmental Management Officer is responsible for the proper operation of the Environmental Management System and ensures that it is communicated (to the staff) and that it complies with the procedures, at all levels of the services provided.

Assisting in this effort is all the personnel of the company, which with a sense of responsibility, supports and implements the environmental management system through its daily work.

The CEO of **ATTICA MOVERS SA** undertakes the responsibility to provide all the necessary means for the seamless operation of the Environmental Management System and its continuous updating.

This policy has been communicated to all staff and to all external third parties.

The CEO

Georgia Kasimati
